

# COVID-19 Pet Safety Measures

## CDC UPDATE

Even though COVID started from animal to human transference, there is no current link to pets being at risk from being around humans.

## SAFETY PRECAUTIONS

Mandatory for Care Providers to wear masks and gloves when in your home. They also have hand sanitizer but wash their hands frequently between each client.

## EXPOSURE

- If any of our Care Providers are exposed:
  - we notify pet parents immediately. Services will be suspended in order to minimize all risks.
  - Care Provider get mandatory testing and they are not allowed to return until we have received the negative results.
  - Pet Parent decides if they want to allow walks to continue.
